PWC Environmental Chair

PWC Bylaws Description

“The Environmental Outreach Chair shall assist the Room Parent Co-Chairs and the Hospitality Co-Chairs with all PWC events and school events to help make our school and community as environmentally aware as possible and events as sustainable as possible. The Environmental Outreach Chair will form a "Green Team" across grades to assist in reducing waste, using recyclable products and setting up events in the most environmentally conscious way possible. The Environmental Outreach Chair will oversee recycling at the Festival and make all necessary arrangements for that event. The Environment Chair shall also be responsible for helping to coordinate an Earth Day activity.

Overview

Oversee recycling at the Festival; organize an e-waste drive; coordinate recycling and sustainability across all PWC and school events and across all grades; coordinate an Earth Day activity.

Responsibilities

- Organize the garbage and recycling at Festival.
- Organize an e-waste drive (end of January). This must be coordinated with the parish and a certain amount of marketing is needed. Start coordinating 2 – 3 months ahead of time on the website and in parish, school and room parent emails.
- Coordinate various events and activities, which may include a textile drive, Los Angeles river clean-up, etc.
- Discuss potential events with the PWC and calendar the events as early as possible.

Important to Know

- There is some flexibility to schedule events, however they should be discusses with the PWC and calendared as early as possible in the school year.
- Some potential activities include: the art teacher organizes up-cycling projects, Los Angeles County Environmental Defenders Presentation (do not schedule every year as it gets repetitive), LA river clean-up.
- The Festival recycling job is increasing as we are working to make Festival as green as possible. There is more involvement preparing for the Festival and over the Festival weekend than in the past.
